MINISTERIAL CIRCLE

Reflecting on Yesterday, Creating Tomorrow

MedHealth is more than just a conference; it is a unique place for networking with high-level personalities in the healthcare field.

This year, from Abu Dhabi, our aim is not merely to organize a scientific agenda or a repetitive conference, as we can do that every day and in every activity. Our goal in the occasion of the Silver Jubilee is to launch a cause aimed to enhance the Excellence in Healthcare services.

Each circle will champion a cause and campaign adopted by healthcare industry leaders and professionals to advocate for a better future.

The first circle will be the Ministerial Circle, hosting Ministers of Health that will emphasize the significance of ***"Democratizing Healthcare: Bridging Disparity and Building the Future."***

This commitment strengthens their dedication to making healthcare more inclusive, fair, and sustainable. Moreover, it underscores the critical role of innovation and forward-thinking in achieving these transformative goals.

This ministerial circle will encourage dialogue between policymakers and stakeholders, bringing lively discussion and debate, reflecting on yesterday's experience and creating Tomorrow's vision.
